

## MEET OUR FARMERS - MR DODGSON

In West Somerset, nestled between the coast and the Quantock Hills, Mr Dodgson and his daughter run a flock of 470 ewes on the family farm. Now in its third generation, the Dodgson family have farmed here since the 1920's and their ethos has always been the same – that the sheep should be happy and live a stress free life.

The sheep are kept outdoors throughout the year, grazing the lush grass on the farm. And with the views that the sheep have it's no wonder!

Attention to detail for the Dodgson's is paramount – providing Bakers of Nailsea with lambs which are uniform in both quality and weight.

“We pick out which lambs are ready for Bakers out in the fields, with the help of Flame and Flint our collies,” explains Miss Dodgson. “The lambs are brought quietly into the yard in the evening and then loaded into our trailer the following morning and brought straight over to Bakers of Nailsea, ensuring stress and handling is kept to a minimum.”
